

D/KC MPO Innovation 2045 MTP Comment Sheet (May 25, 2020)

Comment	Chapter	Page	Comment	Commentor Agency	Name (Optional)	Response date	D/KC MPO Staff Response
1	II	all	The width/size of the columns on the pages are different than Chapter I	Member of the public	Joe Concern	5/25/20	You are correct. As these chapters are still draft, you may see some other errors as well (spelling, grammar, spacing, etc...). Our goal was to get the draft information out to our public members as soon as each chapter was somewhat complete in order for the public to be apart of the entire MTP drafting process. The completed draft document will have all the chapters in the same format and have fewer errors and be available for the required public comment period in September. Again, we wanted as much time for public review and comment as possible and that is why we posted (before the required public comment period) each chapter once staff completed drafting them.
